Comments Regarding Pricing Strategy

The subject property is a single family home, which is in overall average condition on the exterior. When searching for comps, the distance searched was 1 Mile and the time searched was 6 Months time. Sold comps were searched for beyond 3 months time to locate properties similar in GLA. The subject is located adjacent to a major street. It was not possible to locate a comp with this same site influence. However, the comps were adjusted for the location difference. Since the subject is in average condition, emphasis was placed on using comps which were also in average condition. The market area has many recently remodeled or significantly updated homes, which were excluded from use in this report, because they are not most representative of the subject. However, it was necessary to use two superior condition comps with adjustments due to the limited similar comps in this area. Market conditions and property values are improving within this area.
