Comments Regarding Pricing Strategy		
<p>City Building Services said that there is no active building permit for the Subject address and will be sending city inspectors by to find out what is going on there. During the drive by inspection a roll off dumpster was observed parked on the driveway with drywall debris noted from the dumpster to the front door. Subject final value is based on the adjusted comps values and it was concluded as the best and Subject's final value represents a value with normal marketing times and based on the most similar and proximate comps in this report. Using County Assessor records which are considered more current and accurate for GLA, year built and lot area. Using MLS data for room counts, patio/deck, fence and fireplace. Due to limited number of comparable sales and competitive listings it was necessary to exceed some guidelines. Using above grade GLA square footage for subject and comps. Home and landscaping seem to have been maintained in average condition as noted from doing an exterior drive by valuation inspection and no maintenance items were noted affecting value of the Subject. Assume property owner occupied. Home and landscape seem consistent with same conditions found throughout this neighborhood. Property is in average condition consistent with the same level of similar maintained properties found in the neighborhood. The subject is located in an established neighborhood with homes of similar style and age in average to good condition. During the drive by inspection no factors of functional or economic obsolescence were observed that would affect value. The preparer of this evaluation is not registered, licensed, or certified as a real estate appraiser by the State of Colorado REC Rule 42.</p>
