Comments Regarding Pricing S	trategy			

Our market is currently stable- SFR saw a jump of 13.2% in sales price since this time last year, while condos/townhomes saw an increase 13.4% in sales price. Demand has slowed down in recent months, however. Inventory has increased to about a 4 month supply. Distressed sales remain low, accounting for only 2.8% of sales. Cash sales account for about 25% of recent sales. Days on market have increased slightly-roughly 75% of homes sell within 60 days. The suggested list price is based upon comparable sales used in account with current market conditions. Also based on exterior inspection only- interior condition could dramatically affect the value of the property.
