Comments Regarding Pricing Strategy

I went back 12 months, out in distance 1 miles, and even with relaxing search criteria I was unable to find any comps which fit the exact condition requirements. Within 1 mile and back 12 months I found 4 comps of which I could only use 3 due to similarity factors. The comps used are the best possible currently available comps within 1 mile and the adjustments are sufficient for this area to account for the differences in the subject and comparables. Market activity has been picking up in this area. There are currently minimal regular sales on the market and several short sales. Buyers consist of both investors and retail buyers. Resale in this area has been strong. Homes are generally moved to pending within several weeks of listing. Currently the market is picking up and multiple offers are becoming common. Pricing based on a comparison to sale comp 1 of similar size, condition and location. Subject has no listing or transfer activity since its last sale. Subject should be marketed in as-is condition, the market has both retail and investor buyers. Current market in the area is very strong with a lack of inventory for the number of buyers, homes are generally selling within 30-45 days with usually 2 weeks of open houses and multiple offers received. If a home is on the market 90-120 days this is an extremely over priced home or there is a significant detraction that is causing this.

San Jose, CA 95127

Clear Capital Quality Assurance Comments Addendum

Reviewer's The price is based on the subject being in average condition. Comps are similar in characteristics, located within 0.39 miles and the sold comps closed within the last month. In addition, there was a prior report completed 10/2018 and the variance is -11.1%. The price conclusion is deemed supported.
