Comments Regarding Pricing Strategy		
<p>The subject is in Average condition. The subject appears to be in Average condition with obvious no signs of deferred maintenance evident from a drive by assessment. The home conforms in respect to style, utility, and overall curb. The view from the subject property is other Homes in the neighborhood. This type of view is typical for most other homes in the neighborhood. The market is stable with a 6 months supply of homes available for purchase. The majority of homes on the market are fair market properties. Demand is moderate. The subject was strategically valued mid-market as there are no extraordinary characteristics which would value the subject low or high. Subject's final value was based on most recently closed sales similar to subject and currently listed properties in direct competition with the subject property. Search for comparable market sales and listings was focused on the home's immediate market area, providing comps that reside within direct competition to the subject. All comps offered feature an interior size that remains within 20% of the home's interior size, and offer a maturity that remains within 10 years of the subject in age. Comp selection was focused on providing FMV transactions, while also offering recent market sales. The subject should be valued with recent market sales, offering a consistent and accurate market value for the home.</p>
