### Comments Regarding Pricing Strategy

The subject is located in an area with a high concentration of much older homes built in the 1920's therefore it was necessary to use comps in this age range in order to complete this report. Values are wide due to all the variations in characteristics and since there was a shortage of comps with similar age and characteristics within the immediate area; it was necessary to expand search to include; comps older in age, comps with more/less sqft and rms in order to complete this report. Market values have stabilized in this area therefore I would value subject similar to most equal comp S3 since it's the most proximate and has similar characteristics.

## VII. Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
