I looked at the sold comps as well as the assessed value of the subject property to help determine the Suggested List Price. Subject has no address marker, used neighbors address to verify subject location.

### Clear Capital Quality Assurance Comments Addendum

Reviewer's Variance is a combination of market increase (prior report is from October 2018) and the prior report using distressed comps. Prior Sold 3 MLS

Notes comments describe it as an investment opportunity while prior sold comp one MLS states the following: "MAJOR COSMETIC FIXER UPPER \* Priced low because it needs full cosmetic rehab."

The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
