Comments Regarding Pricing Strategy		
See expansion of search parameters below. The subject is located in a rural area with limited real estate activity. The lack of comparables required an extension of the search parameters as follows: search radius of 5 miles to include the entire rural town, a six month timeframe, square footage range range of 20 percent, year built range of 25 years, all other filters were removed. The most similar comparables were then selected. Priority was given to the most similar closed transaction. Given a lack of more available comparables the value bracket was relaxed.
