Comments Regarding Pricing Strategy

Our market is currently stable- SFR saw a jump of 13.5% in sales price since this time last year, while condos/townhomes saw an increase 23.8% in sales price. Demand has slowed down in recent months, however. Inventory is low, with less than a 2 month supply. Distressed sales continue to decline, accounting for only 2.5% of sales. Cash sales account for about 25% of recent sales. Days on market are also low- roughly 88% of homes sell within 60 days. The suggested list price is based upon comparable sales used in account with current market conditions. Also based on exterior inspection only- interior condition could dramatically affect the value of the property.

VII. Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
