Comments Regarding Pricing Strategy

Subject is an SFR home with 1988 GLA, 1963 year built. The subject is located within a reasonable proximity to major roads, parks, schools and retail amenities. The improvements conform well to surrounding properties. There are no apparent adverse factors which should affect the subject's marketability. Due to the lack of comparables that fell within the subject's bracketed square footage, it was necessary to search further back than three months (but used due to stable market conditions) and used comparable with variance in bed/bath count. In delivering final valuation, most weight has been placed on CS3 and LC3 as they are the most proximate to the subject.

VII. Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
