### Comments Regarding Pricing Strategy

At the time of exterior inspection, there were no negative or positive features that were noted that would have a negative or positive impact on the subject property's value. Therefore, the condition of the subject property is average. No adverse environment conditions were noted during the property inspection effecting the subject or surrounding properties. Price opinion based on market data of recent sales and active listings ratios. Most consideration was given to the Sales Comparison Analysis. I used comps with inferior and superior features due to lack of comparable sales and listings in the area. High demand area. Subject's final value represents a value with normal marketing times and based on the most similar and proximate comps in this report.
