Comments Regarding Pricing S	Strategy			

Pricing strategy based on performance of sales and list comps. Estimations made taking into consideration a presently stabilizing local market. Some comps used are rather distant but are being used due to the lack of similar sold/list comps in the subdivision. Parameters were extended to find more suitable comps in terms of GLA, closest proximity and most recent sales. I went back 12 months, out in distance 2.5 miles, and even with relaxing GLA search criteria I was unable to find any comps which fit the close proximity requirements entirely with similar condition as subject. Within 2.5 miles and back 12 months I found 16 comps of which I could only use 3 due to proximity factors entirely. The comps used are the best possible currently available comps within 2.5 miles and the adjustments are sufficient for this area to account for the differences in the subject and comps.
