Comments Regarding Pricing Strategy

There is a condo development located across the street from the subject's left side. There is a vacant lot located behind the subject. There are also commercial properties visible from the rear of the subject's second story. The negative influences surrounding the subject will likely have a negative value impact with many buyers. All of the comps provided in the report are located in the subject's gated development, but they do not all have the same influences as the subject. Location adjustments have been applied as necessary. The subject is in average condition. Probable as-is price is value for a fair market sale. Value assumes interior condition is similar to the exterior and typical for the immediate neighborhood. No short sale or REO comps were utilized or considered in the final value. Market values increased in the last year but values appear to have stabilized but there is still a shortage of listing inventory on the market. The search for sale comps was expanded to within six months due to limited similar sales within three months.

VII. Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The price is based on the subject being in average condition. Comps are similar in characteristics, located within 0.21 miles and the sold comps closed within the last 6 months. The market is reported as having increased 3% in the last 6 months. The price conclusion is deemed supported.
