Comments Regarding Pricing Strategy		
<p>Due to the limited amount of comps, the search was extended as follows: 1) closings were extended to 180 days 2) the age guidelines were extended and this factor is taken into account during the adjustment process 3) the search was extended to the neighboring zip codes.4) The subject's gla is only bracketed by the sold comps since there are not active comps at the present time on the market to do so.6) Due to low inventory, marketing strategies ,market increases and multiple offers some properties tend to sell higher than their respective listing prices. This is common in the local neighborhood and also in the whole San Jose market.All comps were adjusted to reflect the differences in features, amenities and condition. The local market has remained stable since Jan 2019, but we see some decrease on prices as of lately. It is driven by regular transactions. The sold comps provided a bracketed price range that once it was validated by the adjusted listings, led into the final opinion of value. The property should be marketed AS IS in a marketing cycle of 30-60 days (the actual average DOM for listings is 45 days)</p>
