Comments Regarding Pricing Strategy		
The values were determined by weighting the sold comparables using the following weights: S1: 40%, S2: 40% & S3: 20%. The active listings were not weighted in the determination of the subject's fair market value. Due to the subject being located in a limited market, the broker had to expand on some times frames to find sufficient comps.		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
