Comments Regarding Pricing Strategy		
<p>Sales 2 and 3 were given the most consideration due to having the most overall similar value defining features. Typical market time for subjects direct market is under 90 DOM. There are limited comparable listings/sales in subject's direct market area. GLA variances were extended slightly to prevent extending proximity into excessively higher or lower median value neighborhoods. Even after relaxing typical variances over 30% it was still necessary to extend back over 6 months to locate at least 2 comparable sales from subjects tract. Within 1 mile of the subject a total of 5 comparable listings were located. Of these listings, all are fair market. Considerations for all value defining features and appreciation were taken while determining opinion value.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Comp proximity is the cause of the variance. Current comps are closer to the subject than those in the prior report.

Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
