| Comments Regarding Pricing Strategy | | |
| <p>Based on my exterior inspection of the subject property, I was not able to determined any damages. The interior condition of the subject is not determined as this was an exterior inspection. Value is based on the assumption that subject has the characteristics in the report, and this information is based on the tax record information. Comparison analysis were done by collecting market data, selecting the most appropriate comparable properties, verifying market data, applying appropriate adjustments, and reconciling the various adjusted indicators of value into a value estimate. The sale price is based more on sold comps. All comps were the closest possible to subject in lot size, sq ft. I used MLS and tax record, I was not able to find better sold and active comps; therefore I include comps over 0.5 mile far from the subject property with inferior and superior features.</p> | | |

Clear Capital Quality Assurance Comments Addendum
