There is a 4 lane arterial that is about half a block to the North of the subject but it is a minor influence. The subject has 328 square feet of finished attic area which has less utility than main floor square footage given the slanted walls and lower headroom.

Listing Comments Why the comparable listing is superior or inferior to the subject.

Listing 1 Listing 1 is inferior in GLA and room count to the subject. Has a larger lot than the subject. Went pending in 1 day.

Listing 2 Listing 2 is smaller in GLA and lower room count but is in superior condition. Condition is somewhat offset by the arterial influence as it is on a busy road.

Listing 3 Listing 3 has a larger lot than the subject but has an inferior GLA. The listing has a full finished basement which gives it a superior total square footage. Has some cosmetic upgrades.

Comments Regarding Pricing Strategy		
The sales and listings bracket the subject nicely and produce a reliable value conclusion. The finished basement area of some of the comps has similar utility to the finished attic area of the subject as well as similar value in the subject market.		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes	The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
