Comments Regarding Pricing Strategy		
<p>Subject may be about to go into renovation. From my exterior inspection all interior fixtures appeared to be in place, however an interior inspection is recommended. This valuation assumes no renovation. If there is less than 100 sq ft difference in GLA between the subject and comp then an adjustment was made for bedroom count differences. If there is 100 sq ft or more difference in GLA between the subject and comp, an adjustment was made for the GLA difference but not bedroom count difference. If both are adjusted under this second circumstance then you have effectively counted the greater GLA twice. I arrived at my value conclusion by looking at current listings and recently sold comps in the area. I weighed the closest of the sold and listing comps after adjusting for differences between them and the subject. Parameter(s) adjusting for differences between them and the subject. Parameter(s) were expanded as per the notes below each comp.. The following parameters were used to find 8 Sales Comps: Date Sold=180, Distance=1 Mile, GLA=30%, Lot Size=N/A. The following parameters were used to find 14 Listing Comps: Date Sold=365, Distance=2 Mile, GLA=30%, Lot Size=N/A</p>		

Clear Capital Quality Assurance Comments Addendum
