Comments Regarding Pricing Strategy

Search was conducted with criteria focusing on comps within 1 mile radius of the home and interior features that resemble the subject property. All comps utilized remain within 10-30% of the home's size and 1-7 years. Proximity was expanded as a result of a limited supply, GLA, lot size, and age was also moved beyond average to feature enough market comps. The subject should be valued among similar sales that provides a prominent market value among competing homes. Lot size guidelines were exceeded to obtain comps, due to limited market data in the subject's immediate neighborhood. Sale date criteria was expanded over 6 months in date to attain comparable sales which have sold within a 12 month time frame. Majority of the homes in the area have superior bedroom/bathroom count, due to lack of comparables it was needed to use comps that varies in floor plan. Due to the limited number of comps in the local market it was necessary to use a comparable that was slightly outside the allowable price threshold.
