Comments Regarding Pricing Strategy

The pool of comparable used to derive the above data was obtained from a search completed on the local MLS system. The following parameters were used: MLS area Stockton, 0.500 mile radius, back 6 months in time, dwelling square footage ranged from 2069 to 3101 sq. ft., the year built ranged from 1999 to 2009. The search returned 3 sale and 1 active/pending listing. Due to a lack of recent activity, the comparable search parameters could not be meet. Search parameters were expanded up to 1 mile on distance, regardless of size and age. The most recent relevant comparable were used in this report. Currently, the subject's immediate and general markets are experiencing stable or decreasing values in some neighborhood. Some neighborhoods are still very sought with less supply available. Homes appear to continue to sell less than two months when priced a fair market value for these current conditions.
