Comments Regarding Pricing Strategy		
<p>Per MLS sheet and interior photos, subject has been renovated. The only visible signs of repair is landscaping. Subject is in the vicinity of a school, a busy road commercial properties. This could have a negative effect on subject's marketability. I gave most weight to CL2 and CS2 which is similar to subject in overall appeal and condition. The Anticipated Sales Value (ASV) given should allow subject to get under contract within 90 days. Final value conclusion given is based on Fair market value. Also, in subject's neighborhood, most Active and Sold comps have been renovated/upgraded. The comps used are the best possible currently available comps within 1.0 miles and the adjustments are sufficient for this area to account for the differences in the subject and comps.</p>
