General Conditions

Owner	Hector Troy	Condition Comments	
R. E. Taxes	\$1,850	Subject design is common for the area with composition roofing in a single story home. The curb appeal is average with established landscaping. The square footage and room counts are common for the build as well as the lot size. Minor repairs appropriate to age as well as normal wear and tear updating should be expected though a full interior inspection is needed. Improved properties are still common so some level of updating may be needed to meet average market standards.

Comments Regarding Pricing Strategy		
<p>Comps that are closest in appeal and condition have been given the most weight in determining the final value conclusion with adjustments for inferior or superior qualities made and noted where possible. Subject is located in a populated area that can be marketed to most average home buyers. Due to increasing interest rates and low inventory subject list price should be competitive with the available list comps for maximum exposure while bracketing within the sold comps. 90 day marketing times are unlikely in this area for FMV properties so if the desire is to obtain 90+ day marketing time then an increased list price above available list comps will be needed. Value is based on exterior only and the assumption the interior is in average condition. Any discrepancies in this assumption could affect the suggested value either way.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
