Comments Regarding Pricing Strategy				

Price opinion based on market data of recent sales and active listings ratios. Most consideration was given to the Sales Comparison Analysis. Comparison analysis were done by collecting market data, selecting the most appropriate comparable properties, verifying market data, applying appropriate adjustments, and reconciling the various adjusted indicators of value into a value estimate. All comps were the closest possible to subject in lot size, sq ft. and age, no better sale and active comps were found; therefore I include comps over 1 mile far from the subject property with inferior and superior features.
