Comments Regarding Pricing Strategy		
<p>My conclusion of value is based on the best and most similar comps available in the most immediate market area. I give more weight to sale 1. Current market conditions indicate properties will sell for the highest and best price. Listings are priced lower than sales because they are in a different market and there are no comparable listings currently in subjects market area. I do not price subject property same as sale 3 even thou they are similar because sale 3 was a cash sale.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes Broker's conclusion reflects a market price for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the price conclusion appears to be adequately supported. Due to a lack of more similar comps available, these search parameters were expanded in order to provide comps from the subject's competitive market area that reflect current market conditions
