Comments Regarding Pricing Strategy

An insufficient number of comparable sales are available within 3 months of the current date. Close proximity to commercial buildings and Cowboy stadium. Proximity does no appear to affect value. The subject property estimated market value is based on the adjusted net sale value of the comparable sales. Due to the lack of comps in the subject property complex, it was necessary to relax criteria and expand the search proximity in order to obtain sufficient comps. Selected comps are the best available to represent the subject property current market value.
