## Clear Capital Quality Assurance Comments Addendum

<b>Reviewer's Notes</b>	The current report is showing a large variance in as-is conclusions with the most current duplicate . The large variance appears to be due to comp proximity. The current report provides more proximate comps that better support the subject's as-is conclusion in its immediate area. The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
