Clear Capital Quality Assurance Comments Addendum

Reviewer's The current report is showing a large variance in as-is conclusions with the most current duplicate completed. The large variance appears due to repairs now completed on subject. In prior report subject was in fair condition. Roof needed to be replaced, photos showed significant damage, also ramp/deck to get to front entrance showed damage. Per current photos in current report, the roof has since been replaced, is new, and the front deck entrance has been rebuilt.
