<b>Comments Regarding Pricing Strategy</b>		
<p>I went back 12 months, out in distance 3 miles, and even with relaxing mile to subject search criteria I was unable to find any comps which fit the gross living area, close date and age requirements. Within 2 miles and back 12 months I found 6 comps of which I could only use due to the gross living area, close date and age requirements factors. The ones used are the best possible currently available comps within 3 miles and the adjustments are sufficient for this area to account for the differences in the subject and comps. The value as of today is \$255,000. The typical marketing time is 78 days. The subject is within 2 miles of Interstate-10. In the subject market, home value ranges from \$120,000 to \$555,000. The median home value in the subject neighborhood is \$275,000. The subject is conforming to the neighborhood. There is no available comp in the immediate vicinity which has similar site influence as the subject. There are no comparable listings and closed sales for the last 12 months in the subject same immediate subdivision. There is a discrepancy in living square footage. Tax Record indicates 3,767 SqFt and MLS shows 4,000 SqFt.</p>
