**General Conditions**

<b>Owner</b>	Tillman	<b>Condition Comments</b> Subject design is common for the area with composition roofing in a single story home. The curb appeal is average with established landscaping and in ground pool. The square footage and room counts are common for the build as well as the lot size. Minor repairs appropriate to age as well as normal wear and tear updating should be expected though a full interior inspection is needed. Improved properties are still common so some level of updating may be needed to meet average market standards. Parameters for search used were: 6 months sale date, one mile radius, +- 400 sqft, +-10 year age difference. 3 sold comps and 4 list comps were returned. Comps chosen are similar in marketability and amenity as well as location, unless otherwise noted due to a lack of available comps. This report is completed assuming subject was built using standard builder grade materials with no assumed updating.

**Neighborhood & Market Data**

<b>Location Type</b>	Urban	<b>Neighborhood Comments</b> Subject is located in an older subdivision known as Green Tree that offers a public golf course. When first built, this area was once one of the more sought after areas to live in. But, as the city grew, so did the desire to live in areas with updated amenities. This prompted the build of the multiple, newer subdivisions Victorville now houses which brought in updating in other areas and left this area with minimal updating and amenities. The area does offer easy access to the freeway with multiple parks and schools surrounding.

<b>Comments Regarding Pricing Strategy</b>		
<p>PER QC: Upon additional review of original photos, I do not see any significant repairs needed to the roof. I see common discoloring with weather and age and areas where patching has been completed in the past, but I see no loose or missing shingles or worn off shingles that would be indicative of roof repairs needed. Granted, the roof is probably near its terms, but, without an interior inspection to confirm, based on exterior appeal the roof is average age appropriate condition. Comps that are closest in appeal and condition have been given the most weight in determining the final value conclusion with adjustments for inferior or superior qualities made and noted where possible. Subject is located in a populated area that can be marketed to most average home buyers. Subject list price should be competitive with the available list comps for maximum exposure with pricing emphasis placed on the pending list comps. 90 day marketing times are uncommon in this area so an increased list price above available list comps would be needed if 90+ day marketing time is the goal. Value is based on exterior only and the assumption the interior is in average condition. Any discrepancies in this assumption could affect the suggested value either way.</p>

## Addendum: Report Purpose

### Market Approach and Market Time

The Market Approach of this report, as established by the customer, is: **Fair Market Price**. (See definition below.)

The Marketing Time as specified by the customer is **Typical**. (See definition below.)

Definitions:

Fair Market Price

A price at which the property would sell between a willing buyer and a willing seller neither being compelled by undue pressure and both having reasonable knowledge of relevant facts.

Distressed Price

A price at which the property would sell between a willing buyer and a seller acting under duress.

Marketing Time

The amount of time the property is exposed to a pool of prospective buyers before going into contract. The customer either specifies the number of days, requests a marketing time that is typical to the subject's market area and/or requests an abbreviated marketing time.

Typical for Local Market

The estimated time required to adequately expose the subject property to the market resulting in a contract of sale.
