Comments Regarding Pricing Strategy		
<p>The subject's bed count is unique in the neighborhood. The property is located in an area where the availability of comps are very low. To find similar comparable it was necessary to exceed the proximity criteria upto 1.5 miles and also exceeded style, year built, 3 month sold date, lot size, GLA and bed/bath criteria. The comps used in this report support the market value of the subject. Most of the similar comparable in subject neighborhood are renovated or having updates. Due to limited availability of similar condition comparable, I was forced to use comparable with some minor upgrades. The subject is located close to parks, place of worship, school and busy street but this will not affect the value of the subject as the comps used in the report also have similar location factor. In delivering final valuation, most weight has been placed on CS1 and LC2 as they are most similar to subject condition and overall structure. Market values remained stable during last 12 months within subject's market area. Subject details are taken from TAX.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
