Comments Regarding Pricing Strategy		
<p>The valuation of the subject property assumes (1) seller- financing is or would be available on a real estate note or contract, (2) a reasonably motivated and unrelated buyer, (3) a 5-10% down payment, (4) a borrower with at least fair (but not necessarily conforming) credit, and (5) an average marketing time for comparable properties in this market. Property styles for Alaska are widely varying. It is common practice to use different styles in valuation as most important factor is GLA. Similar styles and square footage even in the same subdivision are hard to find. Alaska homes vary widely from year built to size. It is typical to use comps with this distance without tainting the worth of Value. Best Comps used for the current market and weather conditions. These comps are within acceptable tolerance and are easily considered worthy for Valuation.</p>
