Comments Regarding Pricing Strategy

The subject property is a 1 story 1728 square feet multi-family home that was built in 1991, containing 4 bedrooms, 2 bathrooms and considered to be in average marketable condition. The difference in bed/bath count due to the neighborhood area hard to find comparable that is similar to the subject in condition and GLA. In order to include comparable to reinforce the subject's GLA and other attributes, the sold comparable search was broadened to 12 months' time. It was necessary to exceed the proximity to the subject guideline of 1 mile in an effort to use the best available comparable from within the subject's market area. The lot size tolerances for comparable had to be extended in order to locate properties that supported the subject GLA and attributes. The price range was over 25%in difference due to the neighborhood area hard to find comparable that is similar to the subject in condition and criteria. In delivering final valuation, the most weight has been placed on CS1 and CL3 as they are most similar to subject conditions and overall structure.
