Comments Regarding Pricing Strategy		
<p>The subject property is a townhome, which is in overall average condition on the exterior. When searching for comps, the distance searched was 1 Mile and the time searched was 6 Months time. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. Since the subject is in average condition, emphasis was placed on using comps which were also in average condition. There are many rehabbed/remodeled homes in this market area, and they were excluded from the initial comp search. However, it was necessary to use three superior condition comps with adjustments due to the limited similar comps in this area. Market conditions and property values are improving within this area. Comps within the subject's market area support a price which is higher than the subject's last list price. The subject did not appear to have any major negative site influences. The subject's MLS Listing indicates that the subject has some improvements completed to it. However, in the subject's MLS Photos there appears to be carpet missing in some of the home. The interior of the home was not inspected for this report, and it is recommended that the interior of the subject be inspected to determine if repairs are needed.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
