Comments Regarding Pricing Strategy		
<p>Within 1 mile and 12 months back, +/-30% GLA, +/-30 years, there were limited similar condition comparables found. Therefore in order to take enough comparables, it was necessary to exceed the condition, upto 30% GLA, style, age, bed/bath count, lot size and proximity up to 1.6 miles. Due to limited comps in the area, listing comps were used despite not bracketing the GLA as they are still considered to be reliable comparables. Price range was over 25% in difference due to the neighborhood area hard to find active comparable that is similar to subject in condition and criteria. The value and marketability will not be affected with the subject being located near busy street, educational institutions, worship place, RR track, highway, park and commercial buildings. In delivering final valuation, most weight has been placed on CS1 and LC1, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record. subject is fair condition : Reapirs: Roof and gutter damage : \$10000 Ext siding damage : \$2500 Ext paint : \$2500 Doors \$1000</p>
