### Sales Comparison Analysis

#### DESCRIPTION OF COMPARABLE SEARCH CRITERIA

A thorough search of the market was conducted to find the most recent and similar sales to match the subject property. Due to the subject's uniqueness and location, there were no exact model matches available. Dated sales over 6 months were necessary to consider for full compatibility. Subject is located in a stable market, so time adjustments are not necessary in this market. All selected comparables were based on the standard guideline and were verified through the Multiple Listing Services (MLS) as Arms-Length-Transactions. All Comps surveyed are from the same demand area and are located within the subject's boundary. All adjustments were made where appropriate. All Comps were given most weight due to their recent sale and are similar to subject in terms of GLA, condition and located in subject area.

#### EXPLANATION OF ADJUSTMENTS

The adjustments were based on market reaction and derived by paired sales analysis. The methodology used to determine the specific amount of each adjustment is based on paired sales analysis within subject's market and market reaction to several of the comps in the neighborhood. The condition of each comparable was verified through review of MLS commentary and interior MLS photos, if available. Even if the condition rating is the same as subject, a condition adjustment may still be warranted due to slight upgrades or lack thereof, based on MLS photos and agent commentary. The amount of the condition adjustment was based upon match pairs with remaining comps, if needed. The dissimilarities that have a 0 indicated in the adjustment column means the appraiser has acknowledged the difference; however, the market does not support any adjustment. GLA adjustments were given to sales at \$50 per SF. Most weight is given to comp 1 for closest location to the subject.

#### ADDITIONAL COMMENTS (OPTIONAL)

The contract/pending date have been provided when available. The unknown box may be checked to indicate that this information could not found or was not available. The subject and comparable information were populated from ClearProp and cross referenced with online data sources. Any discrepancies were noted and corrected based on the most reliable data found.

### Reconciliation Summary

The condition of each comparable was verified through review of MLS commentary and interior MLS photos, if available. Weight is given to adjusted sale comparable 1 supported by comps 2 & 3. MLS data is assumed to be more reliable. The comparables presented within this analysis appear to be reliable indicators of value for the subject property. Comparables are located within the subject's market and considered reasonable purchase alternatives for the subject. Suggested value appears reasonable based upon the comparables. The subject's final value estimate is considered reasonable and supported by comp selection.

## Appraiser Commentary Summary

 Provided by Appraiser

### Subject Comments (Site, Condition, Quality)

From Page 1

It should be noted that this is a desk appraisal only with no visible or physical inspection to the property. Information given is relied on by MLS and public records. Review of the PCI Report and exterior photos of the subject did not reveal an item of disrepair. Based upon an exterior-only inspection by the agent and photos, the subject is rated in C3 condition. The agent cited no observable repairs needed and the interior is assumed to be in similar condition as the exterior.

### Neighborhood and Market

From Page 7

Market conditions are based on a review of sales data, market trends, and marketing times in competitive properties and markets. The market for single-unit residence properties is in balance at this time. Conventional financing appears to be stable; no special loan discounts, buy-downs or special financing is evident at this time. Interest rates are still attractive. Home values are in a stabilizing trend.

### Analysis of Prior Sales & Listings

From Page 5

The subject last sold Feb 21, 2019 per Public Records for \$975,000. The terms and condition of the prior sale was not provided to this appraiser. Public records did not reveal any other prior sales or transfers of the subject property for the three years prior to the effective date of this appraisal. The prior sale or transfer history analyses of the subject have been accurately and adequately provided.

### Highest and Best Use Additional Comments

The subject is a legally permissible use based on its current zoning. Also, the lot size, shape and land-to-building ratio allow the present structure and indicate a good utilization of the improvements. Based on current market conditions, the existing structure as an SFR is financially feasible and maximal productive use. The highest and best use, as if vacant, would be to construct a Single-Family Residence.

## Scope of Work

 Provided by  
Appraiser

### REPORT FORMAT:

This report has been prepared under the following USPAP reporting option: Appraisal Report. The content of this Appraisal Report has been supplemented with additional information and data about the subject property and its market, as well as the data, reasoning, and analyses that were used in the valuation process. The cost approach and income approach have been omitted from this report as they are not necessary to produce credible assignment results. If the appraiser determines that credible assignment results cannot be provided without employing either the cost or income approaches to value, this assignment will be rejected by the appraiser or the scope expanded to the extent required to produce credible assignment results in compliance with USPAP. Unless otherwise stated, the appraiser has incorporated only the Sales Comparison Approach.

### PURPOSE OF THE ASSIGNMENT:

The purpose of this Appraisal Report is to determine an and the opinion of the market value for the subject property, at which it could sell in a typical exposure time for the area, considering current market conditions, the condition of the subject and necessary repairs.

### SCOPE OF WORK:

This Appraisal Report was performed by a Licensed or Certified Real Estate Appraiser to estimate the market value of the subject property being evaluated as of the effective date of value stated. Clear Capital has provided the appraiser with additional preliminary data resources for consideration in the analysis, which may include: Property Inspection, MLS records, and Public Records. Although the appraiser did not physically inspect the subject property, at a minimum the appraiser has considered the results of a recent visual property inspection completed by Evan Prather, a licensed real estate agent having completed the above referenced Property Inspection.

### AT A MINIMUM, THE APPRAISER HAS:

1. considered the additional data resources provided by Clear Capital as a resource for subject property and market data/characteristics;
2. consulted and considered supplemental market data from readily available data sources;
3. estimated the market value of the subject as of the effective date of this report restricting the desktop analysis to a sales comparison approach unless this was insufficient for credible assignment results.

### THE APPRAISER HAS NOT:

1. Physically inspected the subject property or any of the comparables contained within the original report(s) or comparables presented in support of the appraiser's value opinion(s).

### INTENDED USE:

The intended use of this Appraisal Report is for the lender/client to evaluate the property that is the subject of this appraisal for home equity line of credit, loan funding due diligence, loan sale, loan modification or loan securitization purposes.

### INTENDED USER:

The intended user of this appraisal report is the lender/client.

### DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interest;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
