Comments Regarding Pricing Strategy

The subject property is located in a semi-rural/rural area in a subdivision with other homes of similar size, style and age. Although there are some FMV properties listed for sale in this area, it appears buyers are seeking the lower priced REO properties where available in order to maximize their buying power. While it appears to be in average condition from the exterior, street view, I recommend an interior BPO in order to determine the overall condition. The area hasn't become heavily driven by REO and Short Sale activity for sales and I would expect to see that trend continue for the immediate future. While some of the selected comps may be outside the recommended guidelines, these remain the best and closest available comps at this time based on the size, age and location of the subject property.
