Each sale directly competes with the subject in the local marketplace. The subject exhibits conformity of construction and is compatible with the neighborhood. Other sales were analyzed for comparison to the subject, however, none were more suitable than the sales used in the report. Sales one and two are over six months from the date of sale and were included due to the lack of more recent sales suitable for comparison to the subject. The sales reflect current market data and are considered reliable. GLA was adjusted at \$31.00 per square foot. The comparables used are the best available and should be considered reliable after adjustments.
