Comments Regarding Pricing Strategy		
<p>Sold comparable 1 is most weighted, same neighborhood. Comparable selection is at a historic low as well as interest rates. COVID-19 has stalled a lot of inventory from coming to market. Much more demand than supply have spiked values 6-9% in last 9 months. Most important criteria for valuing subject is first location. Then GLA, condition, lot size and amenities. Not a distress driven market. Homes in above average condition or something unique can get multiple offers. Also, over last 3 years, below average inventory resulting in fewer available comparables and most times having to expand search radius to similar neighborhoods. Every attempt made to use the most recent and closest available comparables. Very extensive review of ALL comparables in subject's neighborhood and similar surrounding neighborhoods. I very much understand using comparables that are similar age, GLA, condition, etc. However, due to low inventory and lack of comparables, variances may have to be expanded. Very recent sales and active listings most accurately reflect today's market value. Very careful in comparable selection at this time due to limited inventory, but buyers being extremely selective on condition and pricing. Subject is bracketed with inferior and superior properties giving a value range.</p>
