Comments Regarding Pricing Strategy		
<p>The subject property is a single family home, which is in overall average condition on the exterior. When searching for comps, the distance searched was 1.25 Miles and the time searched was 6 Months time. Comps were searched for slightly beyond 1 Mile, but within similar and competing areas, to locate comps similar in GLA and condition. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. Since the subject is in average condition, emphasis was placed on using comps which were also in average condition. There are many rehabbed/remodeled homes in this market area, and they were excluded from the initial comp search. However, it was necessary to use one superior condition comp with adjustments due to the limited similar comps in this area. Market conditions and property values are improving within this area. The subject's bedroom and bathroom counts have been estimated, as they are not available in tax records. The subject is within 1 Mile of commercial properties, which will not have a negative impact on the subject's marketability, as the subject is not directly adjacent to them. The subject did not appear to have any major negative site influences.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
