Comments Regarding Pricing Strategy		
<p>There are limited comparable listings/sales in subject's direct market area. GLA variances were extended slightly to prevent extending proximity into excessively higher or lower median value neighborhoods. Even after relaxing typical variances over 30% it was still necessary to extend back over 6 months to locate at least 1 superior comparable sale from subjects tract. Sales 2 and 3 were given the most consideration due to having the most combined similar value defining features. Typical market time for subjects direct market is under 90 DOM. Within 1 mile of the subject a total of 5 comparable listings were located. Of these listings, all are fair market. Subjects neighborhood is less than 0.50 miles from a freeway. All comparable sales and listings are less than 0.50 miles from subject and are in similar proximity to all possible external influences. This is being noted to be thorough, not because it is believed to have a considerable impact to overall area values.</p>
