Comments Regarding Pricing Strategy		
Value placed for subject is the most probable price it would sell for in today's market based on the adjusted values of the sold comps used. Comps used are the closest overall I had available. Subject lot size is not typical. It is larger as it is a cul-de-sac lot which is wooded.		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes	The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
