Comments Regarding Pricing Strategy

Properties that are over valued from the initial listing date tend to stay on the market for an extended period of time, even after the value has been reduced to a reasonable market friendly value. ***At this time it is too early to tell how the current global Corona virus pandemic is going to effect the local real estate market if at all. Transactions and interest in properties remains robust at this point. This may need to be re-assessed in the near future, but at this point, at least on the local level, there has been no negative effect from the pandemic*
