* Listing 3 is the most comparable listing to the subject.

¹ Comp's "Miles to Subject" was calculated by the system.

² Comp's "Miles to Subject" provided by Real Estate Professional.

³ Subject \$/ft based upon as-is sale price.

Listing Comments Why the comparable listing is superior or inferior to the subject.

Listing 1 Lesser traffic and fewer parked cars on the street. Property shows a greater degree of general upkeep and maintenance to neighboring properties.

Listing 2 More cars, traffic and congestion on street. Some minor deferred maintenance and attention needed to bring comp up to average condition in that of the neighborhood.

Listing 3 No repairs needed as property upkeep has been consistent. Much like street traffic and related noise for cars. Local commerce is within much like vicinity

| Comments Regarding Pricing Strategy | | |
| <p>Final value brackets smoothly between mid and high sold comps. General area and neighborhood typically is superior to surrounding area(s) in that most properties have been upgraded with hardwood flooring, softer interior paint, premium kitchen features as opposed to standard builder features to name a few. I have yet been able to find from a public records or an MLS search a listing describing a property as average condition or average features. To summarize, the condition of the interior of the improvements being valued is the same as the exterior condition of the property unless specified in the report. This being said, upgrades with neighboring properties in average condition are presumed similar to the subject property and viceversa. The preparer assumes that the condition of the interior of the improvements being valued is the same as the exterior condition of the property unless otherwise noted in the report. This being said, upgrades with neighboring properties in average condition are presumed similar to the subject property and vice versa. This report was performed following public awareness that COVID-19 was affecting residents in the United States. At the time of the report, COVID-19 was having widespread health and economic impacts. The effects of COVID-19 on the real estate market in the area of the subject property were not yet measurable based on reliable data. The analyses and value opinion in this report are based on the data available at the time of the assignment and apply only as of the effective date indicated. No analyses or opinions contained in this report should be construed as predictions of future market conditions or value.</p> | | |
