Comments Regarding Pricing Strategy		
<p>The subject property is a single family home, which is in overall average condition on the exterior. The distance searched for similar comps was 1 Mile and the time searched was 6 Months time. The subject's lot size could not be bracketed. However, the comps are very similar in lot size to the subject, and the sold comps were adjusted for this difference. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. The subject is in average condition and emphasis was placed on using comps which were also in average condition. However, the market area has many rehabbed/remodeled homes in this market area, and they were excluded from the initial comp search. However, it was necessary to use two superior condition comps due to the limited similar comps in this area. Market conditions and property values are improving within this area. The subject did not appear to have any major negative site influences. Comps within the subject's market area do not support a price as low as the subject's recent transfer price.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
