Sales Comparison Analysis

DESCRIPTION OF COMPARABLE SEARCH CRITERIA

The comparables are closed sales within 12 months and are within the same area as the subject property. The indicated value range appears to be reasonable. In the appraiser's judgment, the comparables selected are good indications of the subject's value. Search Criteria was within 1 mile and within 12 months. Comps that were over six months old were used due to the lack of more recent sales of similar homes within the subject's neighborhood.

EXPLANATION OF ADJUSTMENTS

Real estate appraisal and valuation is applied around certain typical standards, methods, approaches and theory. The application of said methodologies as well as knowledgeable, experienced and informed intuitive judgment is the basis for the adjustments as contained in the report or the lack thereof, whichever the case may be. The adjustments or the lack thereof are based on the best available marketplace data as contained within the report and the appraisers work file, as well as the fundamental underlying Principle of Substitution. Adjustments, in so much as possible, are based on matched pair data and pairing analysis and/or the appraisers best, objective and unbiased intuitive judgment. The subject's lot was smaller than the comps chosen, but was not considered an under improvement. No other more similar comps were found to bracket the subject's lot. Adjustments for site were based on historical data for similar properties in the area. The subject 's room count was dissimilar then the comps chosen, but was not considered an under or overimprovement. No other more similar comps were found to bracket the subject's room count. Adjustments were based on historical data for similar properties in the area.

ADDITIONAL COMMENTS (OPTIONAL)

The content of this Appraisal Report has been supplemented with additional information and data about the subject property and its market, as well as the data, reasoning, and analyses that were used in the valuation process. The cost approach and income approach have been omitted from this report as they are not necessary to produce credible assignment results. If the appraiser determines that credible assignment results cannot be provided without employing either the cost or income approaches to value, this assignment will be rejected by the appraiser or the scope expanded to the extent required to produce credible assignment results in compliance with USPAP. Unless otherwise stated, the appraiser has incorporated only the Sales Comparison Approach.

Clear Capital has provided the appraiser with additional preliminary data resources for consideration in the analysis, which may include: Property Inspection, MLS records, and Public Records. Although the appraiser did not physically inspect the subject property, at a minimum the appraiser has considered the results of a recent visual property inspection completed by Mark A Litzenberger, a licensed real estate agent having completed the above referenced Property Inspection.

AT A MINIMUM, THE APPRAISER HAS:

- 1. considered the additional data resources provided by Clear Capital as a resource for subject property and market data/characteristics;
- 2. consulted and considered supplemental market data from readily available data sources;
- 3. estimated the market value of the subject as of the effective date of this report restricting the desktop analysis to a sales comparison approach unless this was insufficient for credible assignment results.

THE APPRAISER HAS NOT:

1. Physically inspected the subject property or any of the comparables contained within the original report(s) or comparables presented in support of the appraiser's value opinion(s).

INTENDED USE:

The intended use of this Appraisal Report is for the lender/client to evaluate the property that is the subject of this appraisal for home equity line of credit, loan funding due diligence, loan sale, loan modification or loan securitization purposes.

INTENDED USER:

DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1. buyer and seller are typically motivated;
- 2. both parties are well informed or well advised, and acting in what they consider their own best interest;
- a reasonable time is allowed for exposure in the open market;
- 4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
