#### **Comments Regarding Pricing Strategy**

The subject property is a single family home, which is in overall average condition on the exterior. The subject's fascia boards are in need of repainting. The distance searched for similar comps was 1.1 Miles and the time searched was 12 Months time. List comps were searched for slightly beyond 1 Mile to locate properties similar in GLA and other attributes. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for comps was +/- 20% of the subject's GLA. The subject is in average condition and emphasis was placed on using comps which were also in average condition. However, the market area has many rehabbed/remodeled homes in this market area, and they were excluded from the initial comp search. It was necessary to use three superior condition comps due to the limited similar comps in this area. Market conditions and property values are improving within this area. Comps within the subject's market area support a price which is slightly higher than the subject's last sales price.
