Comments Regarding Pricing Strategy		
<p>Price opinion based on market data of recent sales and active listings ratios. Most consideration was given to the Sales Comparison Analysis. Comparison analysis was done by collecting market data, selecting the most appropriate comparable properties, verifying market data, applying appropriate adjustments, and reconciling the various adjusted indicators of value into a value estimate. All comps were the closest possible to subject to lot size, sq ft. and age, no better sale and active comps were found; therefore I include comps over 0.5 miles far from the subject property with inferior and superior features.</p>
