#### Comments Regarding Pricing Strategy

Many of the comparable listings in this area have either gone through recent updates or a complete remodel. This has created a wider than typical range in pricing. Values have been adjusted as appropriate based on differences in condition or amenities. The value conclusion is based on a careful weighting of both the sold and active listings with greatest weight placed on those listings closest in condition and square footage. The sold comparable listings moved off the market above what is typical for this area which led to the final pricing for the subject to be set less aggressively to encourage the desired marketing period for a fair market value as requested in this report. An address was not visible on the exterior of the subject. Photos of neighboring property addresses as well as the street sign are included for address verification of the subject photo of sold 1 was available in MLS.
