Comments Regarding Pricing Strategy		
<p>Subject's details taken from tax record. Property is currently active for \$430000. To locate proximate comparable it was necessary to use comparables with variance in age, bed/bath count and 30% lot size. Due to limited comps in the area, it was necessary to use comparable with sold price greater than list price. Due to limited comps in the area, it was necessary to use comparable with DOM not within 90 -120 days. However the 90 day price opinion would not be affected due to differing from the average marketing time. Property is close to worship place, school, park and highway. But the location feature not affects the marketability of the property. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition. Address is faded on mailbox. Verification made visually and via tax</p>		

Clear Capital Quality Assurance Comments Addendum
